• PROFILE

Senior Computer Engineering student at Addis Ababa University with hands-on experience in full-stack web development and software engineering. Proficient in Node.js, Express, and PostgreSQL, with a focus on building scalable RESTful architectures and secure backend system designs. Strong technical foundation in IT infrastructure support, coupled with continuous learning in Data Science and AI concepts. Dedicated to delivering high-performance, maintainable software solutions.

• EDUCATION

Addis Ababa University

Sep 2022 - June 2027

Bachelor of Science in Computer Engineering

Cumulative GPA: 3.61 / 4.0

• WORK EXPERIENCE & PROJECTS

Ethiopian Electric Utility

Jun 2026 - Sep 2026

IT Support Intern

- Provided tier-1 and tier-2 IT support across enterprise hardware, operating systems, and network infrastructure.
- Diagnosed and resolved system connectivity issues, hardware maintenance requests, and user access permissions.
- Documented technical incidents and routine system checks to ensure high uptime and operational efficiency for internal operations.

Student Management System

June 2026 - Sep 2026

Full-Stack Academic Project

- Engineered a scalable RESTful backend architecture utilizing Node.js and Express to manage high-volume academic records.
- Configured asynchronous PostgreSQL database connections to optimize query execution speeds and system throughput.
- Implemented secure backend authorization and role-based access control leveraging JSON Web Tokens (JWT).

• SKILL

Technical Skill : JavaScript (ES6+), Node.js, Express.js, PostgreSQL, RESTful APIs, JWT Auth, TypeScript, React, Git

Soft Skill : Problem Solving, Critical Thinking, Technical Communication, Adaptability, Teamwork

Language : English (Fluent), Amharic (Native)

• CERTIFICATION

University of Tokyo Online Course in Data Science and AI
